End Application:

Long range bearer used on a trop ospheric scatter system

Accessory Components And Quantity:

41685 four-way/four-wire active bridge; 41650 receive module; 41651 transmit module; 41620-02 power supply

Voltage In Volts And Current Type:

220.0 ac/dc

Special Features:

Four-wire interface; wideband data interface; v-f interface; signaling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
