End Application:

Jnn-switching br

Special Features:

The joint network node (jnn) facilitates the management of digital groups, trunks, and circuits. It provides the means through which the communications resources at a node can be monitored, controlled, and managed. The the jnn components are housed in a s-250 shelter and extension equipment is housed in user access cases.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
