**Overall Height:**

20.320 inches

**Overall Width:**

26.670 inches

**Dc Voltage Rating:**

48.0 pounds per hour wet

**Case Material:**

Plastic

**Overall Thickness:**

15.240 inches

**Joint Electronics Type Designation System Item Name:**

Unified ip phone

**Electrical Power Source Relationship:**

Alternate operating

**Incoming Call Signal Device:**

Light and ringer

**Signal Device Location:**

Base

**Features Provided:**

Adjustable amplifier

**Product Name:**

Cisco unified ip phone 7941g, channel with licence

**Special Features:**

High resolution 4-bit gray-scale (320 x 222) display; internal 2-port ethernet switch 10/100 base through an rj-45 interface; ieee 803.Af poe; digital certificates, device authentication and encryption security controls; 0 to 40 degrees c operating temp

**Color And Location:**

Gray

**Style Designator:**

Push button, with buttons for special functions

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T187-d
