Overall Length:

9.390 inches

Overall Height:

13.160 inches

Dc Voltage Rating:

48.0 volts 1st operating power rqmt

Incoming Call Signal Device:

Ringer

Outgoing Call Signal Device:

Cradle switch

Inclosure Locking Facility:

Not furnished

Product Name:

Industrial telephone with keypad

Special Features:

Telephone is fully line powered and does not require internal batteries; one isolated solid state switch capable of switching a of 48 v dc, 125 ma or 28 vrms ac, 80 marms; auxillary output allows peripheral equipment, such as beacons, video cameras, and alarm generated, to be activated when the handset is off the hook; comes with 6 foot extended retractile cord; operating temperature -40 degrees farenheit to 140 degrees farenheit; mounting with four 0.280 inch diameter holes; weight, 8.2 pounds; meets hearing aid compatibility magnetic field intensity and volume control technical standards per fcc sections 68.316 and 68.317

Style Designator:

Push button

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T187-d
