## **General Description:**

**Shelf Life:** 

No

Each prom burn-in circuit prior to programming shall conform to all quality assurance provisions of 0n502664; the device types shall be electrically programmed to give the test pattern specified in dod drawing no.0n273680; following the burn-in test, an electrical test shall verify the programmed pattern conforms to dod drawing 0n510873; the test procedure shall verify patternconformance at supply voltages of 4 volts and 6.5 volts; devices which conform to the above requirements shall be marked 98230 0n273680

N/a
Unit Of Measure:
Demilitarization:
