Overall Length:

23.070 inches

Overall Height:

3.470 inches

Overall Width:

19.000 inches

End Application:

Myk-17a, pegasus ground unit

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Unit is tempest/hi-jack compliant

Functional Description:

Simultaneous en/decryption of satellite command/data up-down links, via pegasus algorithm

Supplementary Features:

Unit is cryptologically compatible with myk-17, but is 2 inches longer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
