Storage Temperature Range:

-40.0/+85.0 degrees celsius

Wattage Rating:

5.000 watts

Voltage In Volts And Current Type:

5.0 dc

Product Name:

Data encryption device

Special Features:

Embeddable kg-84 comsec module, universal half height computer peripheral, communications security device; designed to operate in time division multiple access (tdma) architectures to provide secure high bandwidth, wide area, networked data exchange via milstar satellites over a broad range of data; standard d type rear panel interface connectors; flexible key management interface including ds-101/102; crypto ignition key (cik) protection of internally stored keys; cryptographic remote command and status interface; plain text header bypass mode for initial modem setup/dialing; compliant with nsa comsec nad tempest requirements

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23900
