Overall Length:

11.900 inches

Overall Height:

1.680 inches

Overall Width:

7.500 inches

End Application:

Kg-250-m

Unpackaged Unit Weight:

6.500 pounds

Criticality Code Justification:

Feat

Special Features:

Type 1 haipe device specifically designed for secure networking in mobile platforms such as helicopters, cargo aircraft, and hmwvs, this inline network encryptor is built to move, with mobile-specific features such as a remote interface to stowable device, remote zeroization, and heartbeat signaling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
