Unit Package Quantity:

103

Component Quantity:

169

Component Document Origin:

Government

Document Source:

57958

Document Type:

Specification

Package Model Number:

An/msq-121

Joint Electronics Type Designation System Item Name:

Tempest testing system

Joint Electronics Type Designation System Item Type Number:

An/msq-121

Usage Design:

Tempest testing

Model Number:

An/msq-121

Document Identification:

Usaswl specification 001-84

Usage Location:

Communications zone

Functional Description:

Module configured mobile test system which provides capability to conduct tempest testing; includes all necessary apparatus; provides total capability to perform tempest mission without any external equipment

Security Classification:

Unclassified

Specification Data:

57958-usaswl specification 001-84 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
