Functional Description:

Consist of audio spectral analysis, audio recording and data processing equipment for use by two operators

General Description:

Operating requirements 115 vac &/- 10vrms, 48 to 62 hz, single phase, 4000 watts; 65.000 in high by 148.000 in wide by 54.000 in deep; audio analysis range 0.2 to 5 khz, tape recording capabili type 2 audio tracks 1 time code track and 1 servo track, remote control interface
ieee-488

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
