Functional Description:

Provides two rf switch matrices for the injection and extraction of test signals, the injector matrix size is 2 by 97, the extraction matrix size is 2 by 60, both are expandable to 2 by 100

General Description:

Operating requirements 115 +/-10 vrms, 48 to 62 hz, single phase, 25 watts; dimensions 8.750 in high by 19.000 in by 24.000 in deep; rack mountable; operating level <2-dbm, return loss 7db, max insertion loss 7db, outputs via sma-f connectors, remote controlled, input connectors via cannon php connectors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
