Terminal Quantity:

3

Terminal Type:

Connector, receptacle

Width:

12.500 inches

Length:

18.626 inches

Mounting Configuration:

Eight 0.343 in. Diameter mtg holes irregularly spaced

Input Phase:

Single

Frequency Regulation Percent:

0.5

Accuracy In Percent:

0.010

Input Frequency Rating:

400.0 hertz

Output Frequency Rating:

60.0 hertz

Mounting Method:

Flange

Cooling Method:

Integral fan

Line To Line Ac Output Voltage Rating:

115.0 volts

Ac Input Voltage Rating:

120.0 volts

Overload Protection:

Provided

Radio Interference Filter:

Provided

Phase:

Single

Height:

7.750 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T320-h
