Ac Voltage Rating:

220.0 microvolts

Frequency Rating:

65.0 hertz

Accessory Component Quantity:

3

Reproduction Type:

Direct

Joint Electronics Type Designation System Item Name:

Recorder set, facsimile

Joint Electronics Type Designation System Item Type Number:

An/uxh-2c

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Document Controlling Agency:

Jetds

Image Copy Size:

Roll width 18.5in

Phase:

Single

Functional Description:

Records succession of direct readings of weather maps and tactical graphic information

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T335-d
