General Description:

Power consumption 3.2watts, resistance 3.15ohms, operating voltage 26 to 45vdc operating current 2.5 to 3 amps, operating conditions -40 to +65 celcius 0 to 95percent humidity sea-level to 35000 ft, storage condition -60 to +71 celcius 0 to 95percent humidity sea level to 50000 ft, 300 million character useful life, o/a dimensions 1.75in dia. 2.20in length

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
