Overall Length:

3.250 inches

Overall Height:

2.250 inches

End Application:

Type no. T-195/grc-19

Component Type And Quantity:

1 cable and 6 capacitor and 1 coil and 3 contact and 9 resistor

Special Features:

Major components: semiconductor diodes 4; mounting method & configuration: screw, three no. 8-32 0.625 inch thumbscrews, irregularly spaced; usage design: phase discriminator circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
