Case Material:

Aluminum alloy

Case Surface Treatment:

Black, wrinkle finish

Maximum Voltage Rating In Volts:

115.0 ac or 230.0 ac

Maximumlength:

19.000 inches

Maximumwidth:

8.000 inches

Maximumheight:

3.500 inches

Intelligence Data Handling Capability:

Audio/sound receiving automatic and audio/sound transmitting automatic

Indication Method:

Receiving light and transmitting light

Phase:

Single

Frequency In Hertz:

50.0 or 60.0

Fsc Application Data:

Indicator, radio communication equipment, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
