General Description:

Bcapacitor 15, crystal 1, filter 3, transistor 1, diode 1, connector 4, circuit card assembly 1, transformer 2, shield 14, resistor 3 and misc hdw as required for operation and instl, 225 to 400 mhz, 50 ohms if

Fsc Application Data:

An/grc171, radio except navigation nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
