Overall Length:

5.563 inches

Overall Height:

2.000 inches

Overall Width:

4.188 inches

Component Type And Quantity:

1 capacitor and 1 coil and 3 shaft

Special Features:

Major components: bearing assembly 3; contact, roller assembly 1; gear assembly 4; component quantity: 13; mounting method & configuration: bolt, eight slots 0.125 inch by 0.3125 inch irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511I0
