Overall Length:
5.563 inches
Overall Height:
2.000 inches
Overall Width:
4.188 inches
Component Type And Quantity:
1 capacitor and 1 coil and 3 shaft
Special Features:
Major components: bearing assembly 3; contact, roller assembly 1; gear assembly 4; component quantity: 13; mounting method &
configuration: bolt, eight slots 0.125 inch by 0.3125 inch irregularly spaced
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511I0
