Overall Length:

10.340 inches

Overall Height:

7.740 inches

Overall Width:

8.258 inches

End Application:

Type no. R353/urd-4

Usage Design:

Used in rf and local oscillator circuit

Mounting Configuration:

Seven 8-32 mtg holes located 2 on side spaced 4.300 in. C to c and 5 on back irregularly spaced 1 captive mtg screw no. 10-24 located on bottom

Component Type And Quantity:

1 oscillator

Special Features:

Electro-mechanical tuning unit 1; intermediate frequency stage 1; mixer stage 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
