General Description:

Aluminum alloy, fed qq-a-225/8, temper t6, finish, mil-c-5541, type i, class 3, black anodize per mil-a-8625, type ii, class 2, 5.370 in. Lg o/a lg, 1.060 in. M0.005/p0.002 in. Diameter of body, 1.875 in. Diameter of flange, four 0.166 in. Diameter holes countersunk 82 degrees by 0.285 in. Dia, located on 1.562 in. Bolt circle on the flange, flange has flat surface on chord of circumference located 0.770 in. From center of flange, cut on a 45 degrees angle, five pin electrical connector located at opposite end from flange, consists of an objective lens and field lens focusing on to a photo diode

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
