Overall Length:

39.750 inches

Overall Width:

3.250 inches

Dc Voltage Rating:

7.5 volts

Joint Electronics Type Designation System Item Name:

Radio transmitter buoy

Joint Electronics Type Designation System Item Type Number:

No. T-347/srt

Internal Battery Accommodation:

Included

Transmitter Band Quantity:

1

Output Frequency Rating:

Between 115.0 megahertz and 145.0 megahertz

Frequency Control Type:

Master oscillator

Transmitter Emission Type:

A2

Fsc Application Data:

Radio and television equipment except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-d
