Overall Length:

4.000 inches

Overall Height:

2.063 inches

Overall Width:

3.688 inches

Component Type And Quantity:

1 clamp and 1 cover

Special Features:

Xmounting method and configuration: unthreaded holes; four 0.154 inch diameter holes, spaced approximately 2.500 inch by 2.500 inch center to center; major components: commutator assembly 1; decal 1; oscillator and switch assembly 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
