Overall Length:

5.391 inches

Overall Height:

2.062 inches

Overall Width:

4.938 inches

End Application:

Type no. Bc-312 and bc-342 series

Usage Design:

Used as 1st detector of radio receiver

Mounting Configuration:

Four no. 4-40 clinch nuts irregularly spaced

Component Type And Quantity:

2 switch and 10 capacitor and 6 coil and 2 resistor and 1 board

Special Features:

Covers 1.5 to 18 mc frequency range in 6 bands

Fsc Application Data:

Receiver, radio, except radio navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
