Overall Length:

18.750 inches

Overall Height:

18.375 inches

Overall Width:

12.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Joint Electronics Type Designation System Item Name:

Transmitter, radio

Joint Electronics Type Designation System Item Type Number:

T-456/gmd-2

Internal Battery Accommodation:

Not included

Transmitter Channel Quantity:

1

Power Output:

40.000 watts

Output Frequency Rating:

Between 400.000 megahertz and 406.000 megahertz

Frequency Control Type:

Crystal

Transmitter Emission Type:

A9

Phase:

Single

Fsc Application Data:

Transmitter, radio, except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T199-d
