Overall Length:

2.171 inches

Overall Height:

0.562 inches

Overall Width:

0.906 inches

End Application:

Type no. Rt-26/vrc; radio set

Component Type And Quantity:

6 capacitor and 2 coil and 3 resistor and 1 transformer and 1 transistor

Special Features:

Usage design: in crystal switch assembly module a2000; mounting method and configuration: screw, plate, one 0.125 inch wide by 0.171 inch long slot in end of board, screws to end plate; major components: connector, receptacle, electrical 2; printed circuit board 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
