Case Material:

Aluminum alloy

Case Surface Treatment:

Chromate coated

Maximum Voltage Rating In Volts:

27.5 dc

Operating Range:

360 degrees maximum range of indicator knobs; 300 degrees maximum range of rf sens control; 150 degrees maximum range of off, usb, lsb, am, data and cw switch; 45 degrees maximum range of volume control

Power Source:

External

Mounting Method:

Flush panel

Maximumlength:

5.560 inches

Maximumwidth:

5.750 inches

Maximumheight:

3.750 inches

Intelligence Data Handling Capability:

Power source transmitting manual

Fsc Application Data:

Radio set, except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
