Overall Length:

32.000 inches

Overall Height:

17.000 inches

Overall Width:

14.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

Between 60.0 hertz and 400.0 hertz

End Application:

Type no. An/grc-143

Joint Electronics Type Designation System Item Name:

Transmitter, radio

Joint Electronics Type Designation System Item Type Number:

T-961/grc

Transmitter Band Quantity:

1

Transmitter Channel Quantity:

600

Power Output:

0.250 watts

Output Frequency Rating:

Between 4.400 gigahertz and 5.000 gigahertz

Frequency Control Type:

Crystal

Transmitter Emission Type:

F9

Phase:

Single

Fsc Application Data:

Except radio navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T199-d
