**Overall Length:**

1.125 inches

**Overall Height:**

1.000 inches

**Overall Width:**

0.385 inches

**Basic Shape Style:**

Rectangular or square

**Circuit Construction Type:**

Solid state

**Frequency Per Channel:**

20.550 kilohertz output channel

**External Dc Operating Voltage In Volts:**

20.0 single voltage

**Fsc Application Data:**

Radio set, except navigation, ground

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
