Overall Length:

1.125 inches

Overall Height:

1.000 inches

Overall Width:

0.385 inches

Basic Shape Style:

Rectangular or square

Circuit Construction Type:

Solid state

Frequency Per Channel:

20.550 kilohertz output channel

External Dc Operating Voltage In Volts:

20.0 single voltage

Fsc Application Data:

Radio set, except navigation, ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
