Overall Length:

11.000 inches

Overall Height:

3.500 inches

Overall Width:

8.500 inches

Ac Voltage Rating:

220.0 volts

Frequency Rating:

Between 43.0 hertz and 430.0 hertz

End Application:

Tcm-604v

Electrical Power Source Relationship:

Alternate operating

Transmitter Emission Type:

A4

Supplementary Features:

The freq stability is controlled by means of an automatic freq control scheme which includes the afc unit and the fixed crystal reference or digital synthesizer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-d
