General Description:

Provides local oscillator outputs to the intermediate frequency processor to mix 70.0 mhz or 700.0 mhz inputs to obtain outputs in the 7900 to 8400 mhz range; 5 coaxial jack connectors on one end and 1 pin connector on one side; o/a dims 6.30 in. Lg; 5.50 in. W; 3.24 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
