**End Application:**

5820-01-121-7079 multiplexer set

**Power Source:**

External

**Intelligence Input Method:**

Electrical

**Special Features:**

Module handles asynchronous data rates range 50bps to 19200bps

**Functional Description:**

Retimes the users data bits to remove distortion caused by noisy or poorly adjusted channels

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A30800
