General Description:

4provides talking access to a four-wire transmission; frequency response minus 0.15 decibel at 300 hz; impedance four-wire 600 ohms balanced; 73.0 milliamps at minus 24 vdc; operating ambient temperature range minus 30.0 degrees c to plus 55.0 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
