Maximum Radio Frequency Rating:

10.0 megahertz

End Application:

Mark ivb weather satellite station

Supplementary Features:

Analog bus allows internal expansion for configuration of matrices up to 4x25; switches signals up to 2 amps and 250 v; provides a 4x5 two-wire matrix; relay contacts are monitored to provide user selectable confidence checking; shields are provided on each module to improve emi performance and further isolate each module from neighboring modules; quick-disconnect screw terminal features strain relief and a common guard bus

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T142-p
