Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Maximum Power Dissipation Rating:

24.0 watts

End Application:

Cctv; f-16 emergency power unit test cell facility

Electrical Power Source Relationship:

Operating

Emission Type:

F5 transmitting

Special Features:

Silicon tube, rs-170 sync, bright light limiter, 12.5mm lens, al-1e lens, vidicon tube, silicon target, explosion proof housing

Functional Description:

Environmental camera

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T198-b
