Case Material:

Plastic

Maximum Voltage Rating In Volts:

110.0 ac

End Application:

Acts, gulf port north

Inclosure Type:

Uninclosed

Terminal Location:

Back

Power Source:

External

Mounting Method:

Base

Terminal Type And Quantity:

4 wire lead

Maximumlength:

10.600 inches

Maximumwidth:

13.000 inches

Maximumheight:

3.800 inches

Phase:

Single

Special Features:

Provides control of up to four base stations or repeater, radios from a desktop position; has a built-in microphone and speaker; interfaces with radio equipment by audio tone via standard voice grade telephone lines

Frequency In Hertz:

50.0 or 60.0 or 400.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
