3
End Application:
Spacelift range western transmission network
Emission Type:
A3j
Operating Frequency:
Between 2.000 megahertz and 30.000 megahertz
Special Features:
The vafb hf transmitter system consists of twelve collins 10kw and two 45kw transmitters power amplifiers and 14 antennas of different types
to provide the required frequencies and power output, the vafb tx provides a link between ships, aircraft and range control elements in the
missile flight path
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
