End Application:

Dama-demand assigned multiple access network control station

Joint Electronics Type Designation System Item Type Number:

Rt-1771/g

Criticality Code Justification:

Spcl

Special Features:

Uhf rt operates on any existing uhf satcom channel; los com on both 5khz& 25khz channels over entire uhf band; capable of processing transmit and receive signals with the following types of modulation: plain voice fm, 8 or 16 kbps vinson secure voice fm, tactical info data link-a&b, freq shift keying, andphase shift keying

Special Test Features:

Items are being coded as critical to insure source inspection will be performed at the point of manufacture, prior to material receipt by the us navy or other dod components. These items are piece parts or end items in support of vital military hardware necessary to sustain the successful mission of the ships, submarines, and shore stations of the us navy. Critical features including, but not limited to, dimensions, tolerances/clearances, electronic characteristics, and metallurgical properties will bespecified for government q ar (quality assurance representatives) to insure the highest possible degree of quality and reliability of these parts being delivered under navicp contracts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T199-d
