Overall Length:

18.400 inches

Overall Height:

26.200 inches

Overall Width:

10.200 inches

Environmental Protection:

Weatherproof

Operating Temperature Range:

-50.0/+55.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Hermetically sealed

Operating Control Method:

Automatic

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Functional Description:

Nautel automatic antenna tuning units eliminate the detuning problems inherent in high 'o' lf/mf antennas encountered under varying climate conditions. Aclosed loop servo tuning system ensures the antenna is maintained at series resonance and therefore provides a constant 50 ohm resistive load. This allows the transmitter to be installed at any distance from the antenna site.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A32200
