Ac Voltage Rating:

120.0 volts

Frequency Rating:

60.0 hertz

Maximum Power Dissipation Rating:

70.0 watts

Accessory Component Quantity:

1

Furnished Items:

Remote control

End Application:

Weapon system-sypply class aoe

Emission Type:

F5 receiving

Special Features:

Advanced super port tm, advanced integration ppv; energy star & v-chip technology; multiple protocal interface for ppv/quick set programming; wake up sleep timer; channel preview; spill proof cabinet back; dimensions-19 1/2 inches h, 20 1/2 inches w, 18 3/4 inches d

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T198-b
