**Overall Length:**

2.500 inches

**Overall Height:**

6.500 inches

**Overall Width:**

2.000 inches

**Electrical Power Source Relationship:**

Operating

**Internal Battery Accommodation:**

Included

**Installation Design:**

Airborne

**Output Frequency Rating:**

121.500 megahertz and 243.000 megahertz

**Transmitter Emission Type:**

F9

**Vehicle For Which Designed:**

Helicopter

**Special Features:**

Unit is operational-both automatically and manually

**Functional Description:**

Automatic helicopter emergency locator transmitter

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T199-d
