Ac Voltage Rating:

230.0 volts

Frequency Rating:

50.0 hertz

Accessory Component Quantity:

6

Accessory Controlling Agency:

Philips communication security and imaging inc

Electrical Power Source Relationship:

Operating

Special Features:

Ccd imager 1/3-inch format; high sensitivity; high resolution; automatic white balance; backlight compensation; electronic shutter; line-lock w/external phase adjustment; housing length 4.760 in; width 2.680 in; height 1.930 in; metal housing w/mushroom finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T198-b
