Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Output Frequency Rating:

782.000 megahertz

Special Features:

For installed sound applications and working bands; wireless bodypack transmitter, clear channel inline power supply; automatic transmitter setup; backlit lcd w/timeout; frequency and power lockout; 3 segment battery fuel gage; 2 aa batteries; automatic frequency selection; 24 mhz; detachable antenna; lo battery indicator; metal chassis; half rack design; xlr and 0.250 in outputs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-d
