Product Name:

Matrix switchers

Special Features:

Standard size configurations from 4x4 to 16x16; 600 mhz wide bandwidth; isolation between channels for low electromagnetic emissions-to minimize signal leakage in high security or government environments; input audio gain & attenuation adjustable via rs-232 front panel; delay between sync and rgb signals so that there is no glitch during transition of switching

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T142-p
