End Application:

Mobile overboard indicating system (mobi)

Electrical Power Source Relationship:

Self-contained

Output Frequency Rating:

121.5 megahertz

Transmitter Emission Type:

A1 and f2

Special Features:

Has cr-123 lithium battery and unique identification system; meets ip67 watertight standard; manual and saltwater activated; external antenna with strain relief; distress marker light; cordura nylon pouch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T199-d
