End Application:

Boat, workfeatgconductor spurious emissions less than minus 80 db (hi), minus 66 dbc i(lo)featgintegrated duel channel ais (automatic identifications system) reciever

Electrical Power Source Relationship:

Self-contained

Power Output:

25.0 watts

Output Frequency Rating:

Between 156.025 megahertz and 157.425 megahertz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T199-d
