End Application:

Advanced air

Receiver Frequency Rating:

Between 300.00 hertz and 3000.00 hertz

Product Name:

Base remote controller

Special Features:

Hadset or desk mic; up to 250 channels; intercom; mute; clock; vu meter; alpha-numeric display; can operate at 110 vac or at 15 vdc; us or european power supply; option of having one touch transmit, optional wall mount, and headset and footswitch; standby voltage is 15 vdc; temperature range is from 0-60 degrees celcius; dsp firmware provides the following standard codec algorithms: g.711, g.723.1, g.726; weight is 4 pound and 15 ounces; height: 4.75 inches; width: 10.00 inches; length: 8.00 inches; ethernet interface consists of a three port switch, one connects externally to a lan the second connects externally to a computer and the third connects internally to the ethernet port of the net+arm mcu;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T198-b
