Overall Length:

12.0 inches

Overall Height:

15.0 inches

Overall Width:

12.0 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Operating Control Method:

Manual

Installation Design:

Mobile

Circuit Construction Type:

Solid state

External Dc Operating Voltage In Volts:

18.0 single voltage

External Ac Operating Voltage In Volts:

18.0 single voltage

Special Features:

Battery m18 redlithium; weight 17 lbs; modes fm/am, aux, bluetooth; usb port 2.1 amps; charges all m18 batteries; 40 watt amplifier; reinforced roll cage and metal handles; weather sealed department; bottle opener

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
