Dc Voltage Rating:

7.4 volts 1st operating power rqmt

End Application:

1925-01-435-1713

Internal Battery Accommodation:

Included 1st operating power rqmt

Transmitter Channel Quantity:

40

Output Frequency Rating:

Between 134.0 megahertz and 174.0 megahertz

Special Features:

Case size - width 57 by height 133 by depth 40mm; accessories included li-Ion battery pack fnb-115liis, charger pa-45, charger cradle cd-50, antenna cat460, belt clip clip-22; weight 350 g with battery; waterproff rating - ipx8 (1.5m for 30 minutes; built in noise canceling mic and voice scrambler; loud audio; programmable scan, priority scan and dual watch;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T199-d
